Career Objective

Data Science student with hands-on experience in Python, machine learning, statistics, and data analysis. Skilled in Pandas, NumPy, Scikit-learn, TensorFlow, and SQL, with experience building data-driven solutions and predictive models.

Education

B.Tech in Computer Science Engineering (Data Science)

Jain University

Jul 2023 – Jul 2027

CGPA: 8.023

Skills

- **Languages:** Python, SQL
- **Data Science:** Pandas, NumPy, EDA, Data Preprocessing
- **Deep Learning & AI:** TensorFlow, Keras, Neural Networks, LangChain, RAG
- **Database & Warehousing:** MySQL, MongoDB, Data Warehousing, Data Modeling
- **Tools & Databases:** Git, GitHub, MySQL, Power BI

Experience

Infosys Springboard Virtual Internship 6.0 – Software Engineering Intern

Dec 2025 – Feb 2026

- Developed components for a Water Quality Monitoring System using data processing and analytics techniques
- Worked on data handling, preprocessing, and system design for real-world environmental monitoring

BNNarratives - Data Science Intern

June 2026 – July 2026

- Completed a Data Science Internship at BNNarratives, gaining hands-on experience in coding, data curation, and data engineering while contributing to project deliverables.

Projects

- FarmEase - AI-Powered Smart Agriculture Platform [Link](#) —
 - Built an intelligent farming platform leveraging AI/ML for crop recommendations, disease detection, fertilizer guidance, yield insights, and a peer-to-peer service connecting farmers directly with buyers and service providers.
- Navkar Hostels Full-Stack Web Platform [Link](#) —
 - Designed and deployed a responsive accommodation platform with room discovery, facilities showcase, gallery, and booking inquiry workflows, focusing on intuitive UX, responsive design, and seamless user interaction.

Certifications

- Data Fundamentals — IBM (issued mar 2024)
- Microsoft Power BI - Infosys (issued jun 2025)
- Programming Fundamentals Using Python - Infosys (issued jun 2025)

Achievements

- Winner - Escape Room Challenge (2025): Secured 1st position in a multi-round problem-solving competition
- Winner - GRINOVA Ideathon 2026: Selected among top 12 teams at Jain University

Extra Curricular

- ANOVA CLUB – Design Lead, Jain University
- Participated in a 24-hour Hackathon organized by the CRCE Cell, Jain University (2025)
- Core Member – College Technical Council, contributing to technical events and student initiatives.
